

THE THINGS THAT NEVER CHANGE

Preface

This book isn't going to make you rich beyond your wildest dreams; it's going to do more than that.

It's going to make permanent changes of the things in our lives that must never change, and in doing so; we reap the abundance that God destined us to have.

In order to raise your awareness, you need to do everything that I write, and information being rare, what I offer is unique and knowledge that cannot be found anywhere else.

And so, it begins..

Chapter 1- Love

Why is love the most important ingredient that can resolve all human problems?

Why do we need it and why must we practice it daily?
What do you partake of a person who has no love?
We do not wish to feed him, care for him nor give him money.

But a person who pours infinite love on mankind,
We desire him to have everything he ever dreamed of.

I remember once during my awakening, I spoke of pain and suffering for two years, my entire followers desired me to be poor.

And I was homeless for a couple of years, resided in a home elsewhere.

I never forgot this lesson that the power of thought and desire from humanity can actually come true and has the power to make anything happen.

Ever since that day, I trust wholeheartedly in the power of desire.

If it can be steered for the worst, it can be steered for the better.

If the whole world desired the leaning tower of Ibiza to fall, so it shall.

A person with love and who loves every human being he crosses paths with will be loved by many and desired by many to have a good life.

This is the power of desire.

But let's speculate this further.

Not only does love prevent you from repeating people's mistakes, but it also prevents you from repeating other people's suffering.

A person, who's loved for a decade, would he then not be infinite light of blessings for an entire lifetime?

And live such a good life, that everyone wishes him well. He'd never be homeless, he'd never have cancer, and he'll always have infinite riches.

What do you partake of the news that reports crime and then more crime becomes more occurent within the nation.

The people judge, they get angry and they become fuelled with hatred!

And then more crime becomes imminent.

Love is the core that stops crime and abhorrent behaviour.

We stop repeating other people's behaviour, and we stop becoming our worst enemies.

Therefore, if there is one thing to say, is encourage young children to love from birth, and they will be far from suffering and the wraths of evil from an early age.

Not only will they be rich, but smart, full of vitality, and full of dreams.

No addiction, no poverty, and no wrath.

Chapter 2- Change

The universe is constantly evolving, and this effect is constantly changing humanity.

If we don't keep up and change, we get left behind.

Life either gets worse or it gets better.

If you change, it get's better.

The future stays bright.

If you don't change, it get's worse.

And pain is usually the manifestation.

Why does God make it this way? That life get's worse or better.

Because usually life needs to get worse in order for it to get better.

Usually life get's so bad, that we have no choice but to change.

Usually our corrections are made obvious when it get's worse, so that we do change.

Because God only wanted us to change, and that's all he wanted us to do.

Millionaire Joe Vitale was homeless for almost 14 years before he changed and reached his success.

Many millionaires, athletes, Bankers, entrepreneurs hit their success and then file bankruptcy not too shortly after.

Why does this happen?

Because people refuse to change.

How does one go from multi millionaire to bankruptcy and homelessness to multi millionaire in a short period of time?

The answer is consciousness.

People change drastically.

And usually people will have chaos to change drastically.

To realise their corrections and change.

Why do people lose their fortune?

Because when we make it, we get satisfied we start judging, we start thinking we're more superior and we get comfortable.

A lot of people haven't been educated on consciousness; therefore they don't have the right consciousness to keep their wealth.

Usually anxiety get's worse before we are out of options and see that the light is the only answer.

And we change.

We trust the light more than anything.

God will push us to shove, until we desire the light more than anything,

And he will give us anything to change.

And that usually comes in the form of hardship.

For as long as we have baggage, we must change, until we have none left.

And God will send us chaos, and more of it, until we realise our actions aren't doing us any good.

We invest in the light and wisdom, and we raise our consciousness.

And see that the answers were simple all along.

How does Warren Buffet have 3 billion coming to him and Amy Winehouse ends up dead? Both are millionaires.

The answer is simple.

Change differentiates them both.

What happens if we don't change?

What could possibly go wrong?

Most often pain is the result of lack of change.

And worst-case scenario is addiction, cancer and homelessness.

We devolve into demons.

Yes I said it.

Demons.

I joke.

Now that you're out of options.

You will change, and change many times in a day.

Because if you don't, then life inevitably gets worse.

Chapter 3- Forgiveness

Most of you who know me well know that I'm huge on forgiveness.

But people hurt me; they cause me pain and make my life miserable.

Why should I forgive?

Well, that's very reasonable and many people don't deserve forgiveness.

But say you forgive someone, they don't suffer and you save them from unnecessary karma.

And then, you won't have that unnecessary karma.

In other words, if people suffer because you didn't forgive, you do too.

But if you save them from suffering, you won't suffer.

This is exceptionally pleasant especially when it comes to money.

Say for instance, someone made you lose a lot of money.

If you don't forgive, then they lose a lot of money.

And then it will be measured to you again.

And it will keep going back and forth's until you forgive.

In my opinion, that's a lot of money to be losing.

It's just not worth it.

Forgive everything that revolves around money.

And you'll always have abundance.

Forgiveness is something you do for a lifetime.

The more you forgive the more knowledge you have.

The more you forgive on money, the more you will know about money.

The more you forgive on life, the more awareness you will have on life.

Chapter 4- Happiness

How many of us wake up in the morning feeling like crap.
I can assure you that it's many of us.

Say for example, you decided one day.
I am going to choose to be happy.
And then when you've focused on all the things you are
happy for,
You start to see happiness and then life wasn't so bad.

One small thought, usually one minute can change your
destiny forever.

Because happiness creates success.
The secret to success isn't having lot's it's about being
happy and then you will have lots.

*The secret to success isn't having lot's it's about being
happy and then you will have lots.*

I usually focus on all the things I have and have
accomplished.
And when I see how fortunate I really am, it makes me
happy.
Especially to have life.

How many of us enjoy breathing and knowing that we are
still alive.

If you can be happy everyday, and take one minute each
morning to choose your thoughts and shift happiness,

Then you're guaranteed success or to have it coming.

Chapter 5 Gratitude

The Secret is huge on gratitude.
They say it's a multiplier of abundance.

Ungrateful people never have much going for them,
because gratitude means that we appreciate God's work.

Everything God gives you is for your benefit and to not be
grateful is to take him for granted.

You are by far wealthier than many third world countries,
which means you are a trillionaire compared to them.

How does it feel to be a trillionaire?

Well, if it feels damn good.
Then you're definitely going to get more of it.

If you can't appreciate that.
Then you will never appreciate it when you have more.

Because being a trillionaire will magnify your current
thoughts, problems, and situation.
You had a taste of being wealthy.
If you can appreciate that, then you will appreciate it when
you're rich.

Everyday, be grateful.
This doesn't change.
Force yourself to be grateful even when it's difficult and
miracles will be revealed.

When I became aware, Karen berg taught me gratitude and back then, I wasn't anything special.

But as I practiced gratitude, just thinking of third world countries and having nothing to eat when I have food, for 7 years, attracted a wealthy partner, more light in my life, and my life improved drastically.

I had more wealth, and I grew more knowledgeable.

And everything I had, increased in abundance by tenfold.

God adores the grateful.

We just want to give them everything.

Chapter 6 -Meditation

For ten years, I've taken the time to meditate deeply on everything you could possibly think of.

What I came up with was all this knowledge I have to share.

I developed sciences, theories and the cure for cancer.

What is mediation and why should we do it?

Meditation is like self-talk.

Asking ourselves questions as problems arise and walking ourselves through it.

Kind of like understanding yourself.

Asking: Why? And how.

It's important to be kind to yourself and to reflect on everything, because the more we understand information the more it sticks, and we grow in consciousness.

For ten years, I never had trouble sleeping, because I've always been caught in deep meditation.

Of course, if it hurts, don't do it.

But meditation is meant to feel pleasant and arouses the light of the soul.

Answers that are usually not found anywhere else.

Always ask questions. Why? How? And what I am I not getting?

Meditation is for life.

It's an art.

And it derives knowledge from the unseen universe.

You'll be surprised with all the answers you get.

And don't be worried if you get silence a lot.

Because that's the answer for most of life's problems.

Chapter 7 - Science

This chapter is based on my four sciences.

That has helped me overcome anxiety for life, and I hope it will help you too.

ATOMS

1

Humans are like atoms.

You have the proactive side (protons), the reactive side (electrons), and the soul (The neutrons).

Silence the reactive side and you can have the proactive side all the time.

Notice how the soul is on the inside?
Beneath all the ego (the reactive self)?
Because all the answers are within.
The corrections are usually on the outside, and the light
shines from deep within.

The 0.01% physical matter is like physicality and the
99.99% empty space is like the spiritual world of
imagination, the world of miracles.

Because we must be aware of our thoughts 24/7 to tap into
the sixth sense.

Napolean Hill in his book the law of success states that
before meeting people we usually have an unconscious
connection with them prior to speech being initiated, this
is because we are etheric beings and are all telepathic and
our thoughts either clash or create perfect harmony.

He also states that atoms can get together to create positive
substances like H₂O - where there is perfect harmony or
where there is disharmony, lethal substances.

Atom's can evolve or devolve.

Helium can evolve from hydrogen by adding one proton,
one electron and two neutrons. Lithium can evolve from
helium by adding one proton and one electron and two
neutrons; beryllium can evolve from lithium by adding one
proton, one electron and one neutron.

Isn't that clever?

You could also turn iron into gold by adding to each iron atom 53 protons, 88 neutrons, and 53 electrons to each one.

Isn't that amazing?

Humans work just like atoms, in that we get together and evolve each other or devolve each other.

We have the power to transform ourselves through other people.

On the periodic table, you have your list of elements.

It goes from most evil to kindest.

And just to prove this theory true.

It would mean that Hydrogen has the least consciousness and is the most reactive.

Low and behold, the hydrogen bomb is the most lethal weapon of mankind!

THE LAW OF INERTIA

The law of inertia states that if an object is at rest, it remains in uniform motion unless a push or pull is acted upon it.

Let's say that you're the object and you're in uniform motion and the "Satan" in you, could be the pull towards evil and the "God" in you, could be the push towards your higher potential.

The God in you is at war with the Satan in you, but who will you let win the war?

God or Satan?

God only knows love and unconditional love, and in love we awaken to our highest ambitions.

Who will you let win?

CREST AND TROUGH

As you can see below, we have the crest and the trough. Life is a wavelength where the crest is the light in your life, and the trough the ego.

2

Can you see why it's only important to talk to those who are on a crest?

And why we must never respond to resistance, unless of course they are facing their fears.

2

Because people will repeat a low vibration if you condition them to, but what you want to do is condition people to be the light.

Life is up and life is down.

We live in duality.

The second diagram below shows bad future and good future.

Because everything in freewill is negative karma, (lying, cheating, theft), and only gets worse.

And negative debt is on the return, thus the trough.

Good future is the crest, where we are aligned with the will of God, and only positive karma is on the return.

Your future either gets worse or better depending on where you are on the diagram.

Because everything is predestined.

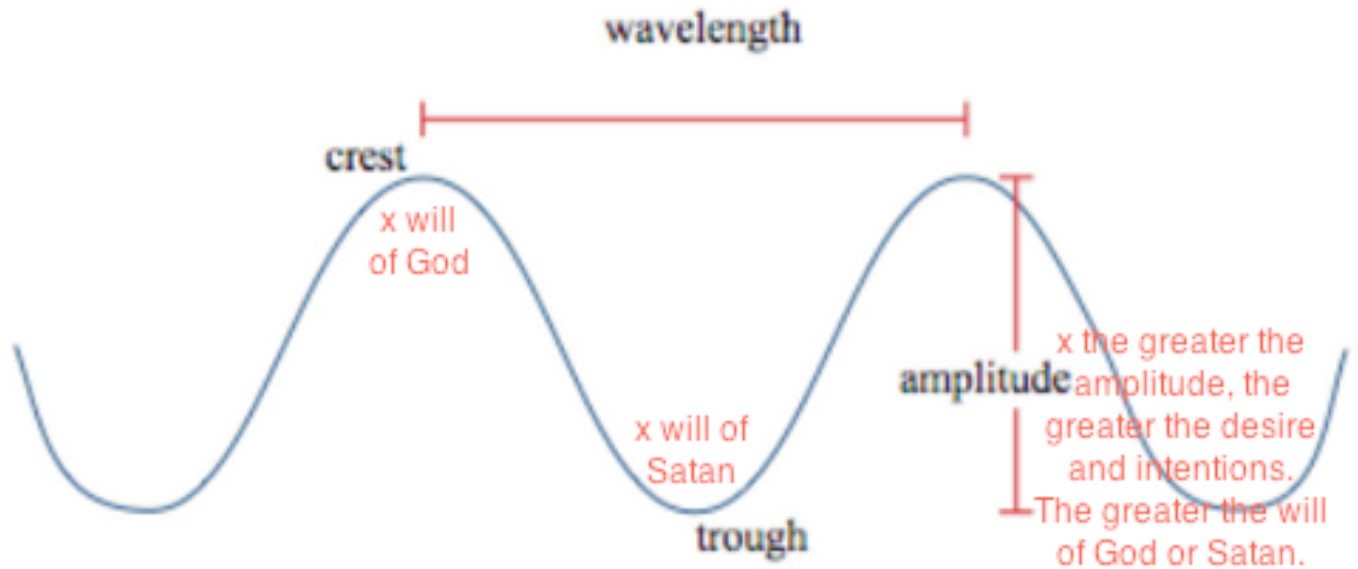

3

The third diagram, if you restrict many potential partners, the greater the desire to love.

Two waves that are the same reinforce each other, like love and love, while two waves that are opposing each other cancel each other out.

Just how love drives out evil.

3

4

The crest and the trough can be seen as poverty and fortune.

Because the greater the struggle usually arouses great fortune.

The moon is trough, and the crest is the sun.
 Angels are crest and demons are trough.

Usually periods of great struggle arouses our compassion to give and be the light and to make greater changes.
 We desire to give more, share more and be more.

Because everything is consciousness.

This leads me to the next part.

GRAVITY

When Newton sat by the tree and the apple fell down he discovered the laws of gravity.

As what went up, the apple came down, for everything is recycled.

As what went up, must come down, for everything is recycled.

We must give our abundance when we have plenty and when we are on the crest, so that when things go down, we will always have light.

By doing this, give your abundance when you have it, and when it comes down you'll always have plenty.

In this way, you will always be on a crest all the time.

HUMANS ARE LIKE BATTERIES

Below you have a diagram that depicts exactly what humans are like.

Which, if you look below you have Summer, Autumn, Winter, and Spring. [Not in order].

If you understand this, you will understand humans altogether.

[- -+ +- +]

This is what humans are like.

Evil intentions [-], Positive evil [-+], Evil positive
[+], Positive Intentions [+].

Reactive [-], Facing resistance [-+], Speaking
[+], Proactive [+].

Evil people [-], Kind psychopaths [-+], Evil
righteous [+], Pure souls [+].

Chapter 8 - Prayer

The God's don't know what you want.
I don't know what you want.

That's why it's important to pray.
So we all know what exactly it is that you want.

We often have little desire to change or want things in our lives.

That's why prayer awakens our desire to have things or to change.

Prayer is very powerful and can make great changes in your life.

I say the anab'koach everyday and it's helped me among many things like to be a non-smoker.
I pray to change everyday, because very often we can't do it on our own.

Prayer is like injecting certainty in your life.

Prayer is like injecting certainty in your life.

Whatever it is that you wish to have, pray with all your heart and soul and do it everyday.
And then, watch miracles happen.

The Usnisa Vijaya is a very powerful dharani.

There was a story of a man who was destined to be animal for a 1000 lives, and then blind for 100 years, and then poor for a lifetime.

Upon this realisation he cried to the Gods, said the Ushisa Vijaya dharani 30 times for 30 days, the God's were so pleased with his humility that upon his death, he was granted in the heavens with the seven Buddha's.

This is the dharani:

**"NAMO BHAGAVATE TRAILOKYA PRATIVISISTAYA
BUDDHAYA BHAGAVATE. TADYATHA, OM, VISUDDHAYA-
VISUDDHAYA, ASAMA-SAMA SAMANTAVABHASA-
SPHARANA GATI GAHANA SVABHAVA VISUDDHE,
ABHINSINCATU MAM. SUGATA VARA VACANA AMRTA

BODHAYA, VIBODHAYA-VIBODHAYA. SAMANTA
PARISUDDHE. SARVA TATHAGATA HRDAYA
ADHISTHANADHISTHITA MAHA-MUDRE SVAHA."**

5

Don't underestimate how powerful prayer can be. Prayer has the power to make great and gradual changes in your life, but you need to do it often, it's good for the soul.

Chapter 9- Higher potentials

Did you know that heaven is worth a trillion dollars?

Why, let me explain.

We all have higher potentials that are predestined by the soul.

Each higher potential is worth a lot of money.

And to get to the next higher potential we need to tithe everything, i.e. give all our money away.

But the last higher potential is worth a trillion dollars.

Which means to tithe one trillion dollars we get to heaven.

How do we know what our higher potential is?

Ask and it is given.

The higher potential is like nevallising, imagining that it is already yours and your exchange of service for it.

Not only will higher potentials make you rich but you'll also do anything to be the light to get there.

Aim for heaven.

Because like they say, aim for the stars and land somewhere on the moon.

To make clear, my 6M mark was to write the telepath's tale.

My 100M was to write a book like rich dad poor dad.
My billion is to write song albums.
And my trillion is an autobiography, which I haven't got there yet.

What is your higher potential?
Ask and it is given.

Chapter 10- Compassion

Everything in this world boils down to compassion.
Compassion for anxiety, smoking, wealth, you name it.

If you don't have compassion you'll fall prone to bondage.

How do we have compassion for ourselves?
You see the trick is to tread with the right intentions all the time, and you'll always have compassion for yourself when you see it.

Have compassion for anxiety and for the weaknesses of those around you.

Be sure people are always confident around you at all times.

This is the knack for being confident yourself and never having anxiety.

Because anxiety stems from passing the evil eye!

And if we never pass the evil eye, then surely we have nothing to fear.

Man will fear himself if he does not have the right intentions.

He will be led by fear and cynicism of others until he learns to love.

It's like judgment, no matter how much a person tries to be the light, if that person is coming from a place of judgment, he will never be the light.
It backfires!

You must never judge.

Have the right intentions.
Have compassion.

If you silence the ego, you will always have compassion.

Did you know that everything boils down to compassion?
In that, our chaos never ends until we have a high degree of compassion for everything on this earth.

That's right.

Practice compassion, practice lot's of it, and it will set you free of chaos in the long term for everything!

That means, chaos will subside, if your compassion for everything is strong.

Chapter 11 - Share everything you know

I was never that smart, in fact I failed my HSC and took two attempts to get into university.

For 9 years, I just shared everything I knew, with anyone especially all the things I didn't want anyone to know.

And I grew smarter.

My awareness expanded phenomenally well and everyday I trust the light to be right behind.

How this works is karma.

Raise anyone's awareness on any topic and God will raise your awareness on that topic.

You don't have to know anything, just share what you know and are 100% sure of already and trust karma to return.

We are governed by universal law, karma, and which means what goes around, will come back to us.

I've built my sharing of knowledge for 9 years that the light returns everyday and I constantly learn new things.

I'm connected to the light everyday by my old intentions. And my light of soul grows.

Switch on the light.

If you want singing, share singing, if you want maths, share maths, if you want wealth, share wealth, if you want awareness, share awareness.

But remember, you need to share everything you know to get to your next level.

Often we are a product of our karma.

You may share more of what you wish to have because that karma will drive you.

You can create the perfect karma.

Or karma that will keep you going for lifetimes.

Because we live to share and to pass the light on.

That's how we grow.

Chapter 12 - World forgiveness

Why do we need world forgiveness?

Well actually, it took me 8-9 years to have pure forgiveness with everybody, that I took it to the next level.

World forgiveness.

As long as you have forgiveness, you will never suffer anxiety.

It's not medication.

It's forgiveness.

I was medicated against my freewill for 9 years, and the doctor attributed my well-spoken articulation to medication.

He said, "Medication is the reason you speak so well."

I was deeply abhorred by this.

Forgive and you'll always speak well and articulated.

Because remember, where you don't forgive you will repeat that correction over and over again until you forgive.

Do save all the trouble and forgive early.

On the plus side, you'll never have cancer or be homeless.

And wealth increases from this point out.

I spoke to Steve jobs and he said, "Go to where you have a karmic correction."

So I'm sure he knew the truth too.

It takes 8-9years, but what you have is a lifetime of pure life, to be safe, to read, go out, have fun and do everything you possibly ever dreamed of.

People who attribute your positive success to medication are deluding themselves because it takes great inner changes to evolve and be a better person.

Medication is a band-aid.
And change is the core of all problems.

Just to give a better example.
Vagya's are like karmic surgery that has the power to heal cancer.

Joe Vitale mention's it in his book the Attractor Factor.
Where illnesses spontaneously heal from the removal of karmic forces.

Nothing is random in this world.
Cancer is not random.

Einstein did say that, " God does not roll dice."

We alone must be responsible for our actions because everything is connected and there are spiritual consequences for everything for the better or worse.

The laws of karma govern us.

Usually cancer, is a repetition of karmic corrections that build up to the point of irreversible damage.

Although can be cured by a Vagya which costs money,
nothing is impossible.

Chapter 13 - Chasing money is a sin

Scot Anderson in his book: Think like a billionaire become a billionaire says, “Your mum chased money, your grandma chased money, it never worked.”

Let's face it! We all want more money.

But running towards money is never going to work.
It's just going to run the other way.

But run away from money and money will run towards you.

Most celebrities agree on the same thing that money comes from doing what you love to do, your passion.

And working hard at it.

Most of the people that got rich got rich chasing their passion and dreams.

Why is chasing money a sin?

Because it usually leads to unnecessary baggage which will cost you more money in the long run, so best not to do it.

Try and save lives.

This is very rewarding for the soul and comes back tenfold.

But do it because you care, not for money.

Usually everything that is good for the soul will make you an enormous amount of money.

But don't do it for the money, do it because it's the right thing to do.

Chapter 14- Always go the extra mile

Napolean Hill in his book law of success, states “Always do more work then rendered for.”

In other words, always do more than what you are paid to do.

Bob proctor in his book You were born rich, talks about the razor edge theory how the Gold medal finalists won not by seconds but a point tenth of a second, all because they did that extra one hour of training.

I like to push myself to my limits.

I find that you grow to your next level if you do this well.

We were born as selfless beings, like Moses, Jesus and Buddha to be selfless beings of pure light.

To serve others, so that we will be served and live like royalty.

Serve others, so that we will be served and live like royalty.

Think of Gods.

They've lived 7 million years of humanly life to serve and give to others, so that they will one day become a God.

Try and aim to be a God.

God's are perfect; they have all the wealth, health and knowledge, and are perfect sharing beings.

Scot Anderson says, “Make others successful.”

I’ve made fortunes for my best friend Rav Berg who is a multi millionaire.

And I don’t regret any of it.

I believe if you do that for others, that intention comes back to you tenfold.

But you must do it for a long time.

Alibaba didn’t become successful by doing nothing during the first three years they made no money.

They made other entrepreneurs and small businesses successful in that time, and adopted the right consciousness.

“If they’re happy, I’m happy,” says Jack Ma.

Chapter 15 - Focus on your strengths

Dean Graziosi in his book millionaire habits talks about focusing on your strengths.

If you pay attention to your weaknesses, more weaknesses will be the show.

But if you get into a habit of believing in yourself and focusing on your strengths, more strengths you will get, you will almost be convinced yourself of how amazing you can be!

We are often, bombarded by people's beliefs and perception of ourselves all the time, this is why this tool is a neat trick to overcoming people's judgments all around us.

Believe in yourself.

And focus on your strengths!

Jk. Rowling was on welfare payments at 28 with kids.
Jack Ma found it impossible to get jobs for 12 years and didn't make a cent for the first 3 years with Alibaba.
Steve jobs traded coke bottles and walked a mile to eat meals on wheels.

Karen Berg and Rav Berg slept in a car and shared with people on the streets for 25 years before they became a success.

This shows us that it's consciousness that is important.
You don't need a degree.
You just need to change your thinking.

Consciousness is the ultimate wealth and is the reason you stay rich.

Consciousness is the ultimate wealth and is the reason you stay rich.

How do we know?

Take a billionaires money away and he'll get it back the next day.

Why?

Because of his consciousness.

Chapter 16 - Give and you shall receive

If you're lacking something in your life,
The very thing you lack is what you need to give.

Be that love, happiness or money.
Give what you want.

The generous have an abundant of light especially if they
give everything.

Everyone loves money but no one wants to raise their
consciousness on money.

There can be no other way.

I gave for four years, and was looked after by everyone for
a long time.
Because when you give everything each week, everything is
cared for.

And then the light started to return.

And I gave everything that returned, and built my wealth.

It's not how much money you have that matters, it goes by
how much you've given.

*It's not how much money you have that matters, it goes by
how much you've given.*

You can turn \$1 into a billion dollars with the right attitude, if you wanted to.

When the light returns, give.

When the light returns, give.

And when that returns, give.

Until you've turned a dollar into a billion.

That's what they mean by when they say a billionaire will turn \$1 into billions while the average will spend and spend.

How you treat money should be how a homeless person treats 5c.

When you have your attitude right and don't take money for granted, God will send you more.

Don't forget.

God will send us more hardship when we don't have the right consciousness in order to have the right consciousness.

Joe Vitale was homeless for 14 years until he got his consciousness right and became a millionaire.

Take every cent as the light returning, and give everything.

Why does Warren buffet have 3 billion coming and Amy Whinehouse ends up dead?

Both are millionaires.

It's simple; the light of giving protects you.

On the contrary, remember to spend big on the self once in a while, because self-love is as important as giving to others.

Chapter 17 - Nevallising

Napoleon hill in his book Think and grow rich, he states that one must imagine as if what we wanted were already in possession.

But our exchange of service for it.

This is called nevallising.

Joe Vitale in Attractor Factor says that we must focus on what we want rather than the things we do not want.

When we focus on the things we do not want we get more of that.

But when we focus on the things we want.

God has a way of answering our prayers.

One day, I needed new clothes and focused on a completely new wardrobe and within a week, my partner bought me 20 new shirts.
Instant miracles!

Focus on what you want!
And go get it.

The imagination is everything, what the mind imagines it does.

The imagination is everything, what the mind imagines it does.

This is why we must be wary of our thoughts all the time and adopt the right thinking and beliefs.

In that, we shift the imagination in the right direction.

Bob Proctor in his book *You were born rich*, says to imagine as if you already were!

As if you were already what you wanted.

A trillionaire.

And by doing so, we attract the experiences to us by having the right mindset.

Because everything we do occurs on a subconscious level. That is, the imagination first, then the physical experiences after.

God created man in his image.

Meaning that, the imagination came first.

And by saying so, if you get your imagination right, everything has a way of falling into place!

Chapter 18 - Think positive

A person who thinks negative all the time will attract negative experiences to him.

It could also be subconscious influences like watching the news, which is filled with negative content.

A person who thinks positive will always have health, wealth and prosperity, because they attract those experiences by their mindset alone.

How do we feel when negative people are around?
They drain us of life and all the sparks within our soul, and are uncomfortable to be around.

Be positive and like a lighthouse in the dark for other people.

Chapter 19- Repentance

Being sorry is the great destroyer of pain and turmoil.

We must be sorry for everything, especially if you have baggage.

Sometimes when we have blockages and at early symptoms if we are sorry, it goes away.

In truth, we must be sorry for everything until we have absolutely no chaos.

Because there is no money in karmic debt.

Only love.

How do we know if it's karmic debt?

Well, if it's not love, it's debt.

Sometimes we do things that is not conscious for us or that we don't mean to but comes off rude or abhorrent.

If we repent, it goes away.

I repented for the first 3 years of all my sins, and got karma for everything.

Then the next 6 years were present day repentance just going along as you go.

But repenting for things like a lifetime of judgment, blame, hatred, pride and control.

And many other things, such as being unaware or receiving.

Why should we repent?

Because after the repentance is complete, wealth flows from then on out and you enjoy more financial freedom.

9 years of repentance may seem like a long time, but the effects are permanent and what you get lasts forever.

That's like trading in 9 years for a lifetime of wealth.

It's either that or have your karmic debts of poverty get worse.

I'd say it's worth it.

Chapter- 20 Consciousness

Say for example a hypothetical situation.

10 men work at Woolworths for 5 years as a cash register, all have the same jobs but 5 years later, one changes his career, another get's promoted as manager and another decides to stay for a little longer.

What's the difference?

They all started out the same but ended up with different results.

You see, that answer lays in consciousness.

They changed their consciousness and either progressed or digressed.

Why is it that we like some people more than others?

We are physically all the same.

We are all human.

We all share similar traits.

But why is it that some people stand out more than others?

People like Oprah, Keanu Reeves, Maya Angelou, Joe Vitale, Jack Ma, Warren Buffet.

It's because of consciousness.

What people are attracted to is your consciousness.

You don't have to be the most attractive looking person in the world, but if you have consciousness you stand above the crowd.

The good news is that your consciousness rolls over each life time, so you pick up where you left off.

This means your wealth rolls over, your health and prosperity.

Why did God make this so?

Because consciousness is the only thing that is not predestined.

Everything is predestined, but your consciousness.

Even flowers and plants have consciousness.

Why do some get the Amazon and some get forests and others people's garden.

That may fall into predestination.

Like the rain and water cycle.

But consciousness - it's desire to be fed and nurtured is not predestined therefore some plants bloom brighter than others.

This is like people.

We all share the same experiences but what makes us different is our consciousness on those experiences, that either nudges us further towards growth or destruction, afterwards.

Steve jobs, J.k rowling, Karen Berg, Rav Berg have all suffered poverty during their careers.

We all share experiences of poverty.

But why is it that they are multi millionaires or even billionaires today and some people are still in poverty ten years later?

Some people have not gotten anywhere.

Because of their consciousness.

They used their consciousness to arise from poverty.

There are so many art paintings, but why does Vincent Van Gough stand above the crowd.

Because he said, "I dreamed my paintings before I painted them."

And, there you have it! It's his consciousness that we are attracted to, that makes you wealthy.

Chapter 21- The marble theory

Here is the marble theory:

A marble is round and void and small. It has no desire to receive and moves at a rapid distance. It can motion other marbles to move at a distance. A soccer ball has a larger desire to receive and therefore, moves slower. And needs a huge amount of energy to move at a rapid pace.

Nonetheless, a marble is stationary until a force propels it to move.

Because it has little desire to receive, it moves faster.

However, a soccer ball moves slower but travels at a larger distance.

The point is, the less we receive now, and take our time through the journey of life, the less desire we use, and the faster we will move in later years.

When I first started I was in such a hurry to enlightenment, that I rushed and made a tonne of mistakes that costed me more time in the long run.

In saying so, if there was one thing I could say, is take your time.

Not only do you make fewer mistakes, but also the world will speed up around you, and you will feel more at peace.

Chapter 22- People are reflections

We all know that like attracts like.

The poor attract the poor, the gifted attract the gifted, and the rich attract the rich.

Wherever you are at, people will mirror your intentions and show you where you are at to change.

Because we do not know what our energy is like until we see it in others.

Dirty energy attracts dirty energy,
Positive energy attracts positive energy.

Day by day, people will show you what you need to change through them.

When everyone in your universe is rich, that's when you know your perfect.

But of course thinking we're perfect is ego.
There's always more room to change.

Trillionaires attract trillionaires.

When you start seeing trillionaires everywhere, that's when you know your perfect because trillionaires have no chaos.

This means that everyone who is not a trillionaire will have chaos until they are trillionaires.

That's when they're perfect.

Chapter 23- Millionaires.

Millionaires will condition you to be the light.

When I first met Rav Berg, he asked me to do a speech.

I ended up writing a book.

Millionaires will get you to do phenomenal things for a lot of money.

Rav Berg said I had a 50Million dollar inheritance when I first started, I was so kind to everyone for 6 years, I even sucked up to everyone like no tomorrow. Never in my life did I do the impossible, but I believe him to be just ostentatious.

But now that I look back I see it as nevallising.

Getting people to believe they have a large sum of money coming to them.

Nonetheless, it never stopped me from being the light.

I ended up letting him keep it.

But the point is,

Millionaires will motivate you to do the impossible.

Chapter 24- Highest paid Jobs

The highest paid jobs, believe it or not are:
Actors, Athletes, Musicians and Comedians.
You can google it if you wish, the richest celebrities.

Do we ever stop to ponder why this is the case?
My take is that it's the least karmic debt.

And now you know that being funny actually makes you rich.

Because there are many professions, which reap the worst karma, drug profession, alcohol and gaming.

Which brings harms to other people.

And these are the professions you want to avoid.

And, there you have it.

Actors, Musicians, and Comedians, encourage love, and togetherness.

They strive to bring unity and entertainment that makes everyone happy.

And who would've thought you could get paid a lot for entertaining people and encouraging love?

Chapter 25- Believe you are rich

Believe it or not, but believe you are the richest person on the planet.

And you will attract wealth for many years.

Because everything that happens to us occurs on a subconscious level and it usually occurs with belief.

But I'm poor, and I have no money.

How can I believe I'm the richest person on the planet?

Well, if we think we are poor, poor is what we get.

If we think we are rich, rich is what we get.

When you think you're rich, God starts to see all the people you've made successful, just like Jack Ma did in the first three years of having no money, he was poor for 12 years.

But what did he do? He made other small businesses successful for three years in the time he had no money, and didn't believe he was poor.

He believed he was the richest person on the planet.

And, then what happened?

He became a billionaire.

When you believe you are rich, mind you the richest person on the planet, you start to visualise all the riches you've given to others.

And then that attracts more of those experiences to you.

Because, in case you didn't know, God only gives to the worthy.

Chapter 26 - Save lives.

Saving lives keeps you connected to the light.

And wherever you go, you will always have light.

If you save lives, what happens?

Someone will save your life and it goes back and forths.

You will always be connected to the light.

Did you know?

That the only time you should open your mouth is to save somebody's life?

And not only will you have the right speech, but that, words are also sacred, and that you're saving lives.

You are after all, given one full battery to use wisely each day.

Do expend it well.

And save lives.

Chapter 26- Pay people for knowledge.

If you pay people for knowledge, people will pay you for knowledge, and that's how you become wealthy.

I always pay my respects and give what I can today, not tomorrow, not when I become a millionaire, but today.

Pay people what you can and in time, everyone will pay you because it's the intention that counts.

Having the right attitude when it comes to money is important.

This is just an example of having consciousness, just like having the right attitude to those who have nothing would be to give them everything, money, diamonds, and jewels.

Because how you treat those who are nothing to you determines your wealth.

In other words, it's a reflection of your wealth.

Just like having the right attitude at work is like doing everything so that your boss does nothing at all - is having the right consciousness.

By giving to those who are nothing, doing everything for your boss, and giving to those who give you knowledge, will motivate them to give you more.

I pledged to give to everyone who's ever given me knowledge and slowly I paid them off today, and not tomorrow.

Chapter 27 - You are healthy

If today you are not happy with your health, tomorrow it gets worse.

And it will get worse until your happy.
Which means today you do have good health.

Believe that you are healthy because today is always the best, and that you already do have good health compared to tomorrow.

If tomorrow it gets worse if you're not happy - that means your health today is at it's best.

Therefore, be grateful.

Same is also true of your wealth.

If today you are not happy with your wealth, tomorrow it gets worse.

Therefore compared to tomorrow you are rich.

Believe you are wealthy.

Because life gets worse if we are not grateful for what we have, and God sends us more pain.

You must be grateful and appreciate that today is always the best.

And, that you do already have it.

And, when God sees that you appreciate, he sends you more.

Chapter 28 - Be super strong.

For 9 years I was super strong in the face of many, although some people did not appreciate it, I did not care.

This never changes.

You need to be strong to stand up to people and they will not deem you weak.

They will be grateful for it later, but in the meantime don't care if you are temporarily disliked.

People appreciate strong people.

People appreciate strong people.

Especially using the people skills by Robert Bolton, to be assertive requires a strong person especially dealing with conflict.

Therefore, be strong.

The next point:

Be super sweet.

For 9 years I was super sweet to everyone.

To the disabled, to the less fortunate, to strangers, friends, and family.

Because the more should always care for the less and it helps people let go of envy.

Being super sweet is a nice way of being the light, and it helps people change.

It also ensures that you are a higher vibration and also that you won't smoke.

Because you must be kind to all sorts of people, unattractive and attractive, and let go of all prejudice.

Chapter 28- The power of now.

Sometimes we are so eager for the future, we fast forward time and when we get there, it doesn't bring us the satisfaction we expected.

We get disappointed and look back wishing we made the most of our life and appreciated every second.

While others are stuck in the past on repeat.

Life doesn't get anywhere living in the past, the past is only a lesson meant to be learnt. Other than that, you're meant to move on.

Our subconscious is constantly predicting our future and what lays in its recesses manifests in the present moment.

This is why the power of now is the only opportunity we have to get proactive and tackle our experiences head on.

Because you don't always know what karma you have, but you can choose to be proactive and make the most of the present moment and create new karma, ie. your destiny for the greater good.

And eventually the chaos subsides, and you become the pilot of your future.

That is, only miracles will begin to occur once you've conquered the here and now.

Because corrections are always changing and transforming, so we need to stay ahead of the game, and get ahead of karmic corrections, so that they don't stagnate.

If you keep looking to your subconscious for answers, you'll almost be looking forever.

You can only conquer the here and now, and eventually the core of the subconscious will reveal itself.

And then, eventually you remove layers of your subconscious to reveal only miracles.

Chapter 29- Chakras

I wrote this in my first book, but I thought it needed repeating.

Crown: Spirituality.

Third eye: Seeing beyond illusions, seeing the truth.

Throat: Speaking your truth without harm to none, right speech.

Heart: Compassion.

Solar plexus: Power.

Sacral: Emotions are not suppressed.

Root: Flight or fight, survival needs are met/

Face your greatest fears.

When the chakras are functioning at their optimum, we have no chaos in our lives.

No blockages can manifest.

Usually these are the rewards that have long term effects and don't produce instant results, which means we're on the right path.

Chapter 30 - Right speech

Having the right speech sounds easy does it not?

Well, it ought to.

This remains refraining from gossip, and ill speech about others.

Because what goes around comes around.

It means having compassionate and kind speech for life.

It means having compassionate and kind speech for life.

It's ok to be cruel but kind from time to time,
But right speech is important at all times.

Robert Bolton's book *People skills* touch well nicely upon this topic, and David Nahill's book on public speaking has helped me overcome social anxiety. As well as, the *Comic Toolbox*, which taught me how to have a great sense of humour.

I hope it helps you too.

For 9 years, I spoke only powerful speech because no one will listen to you if your light is smidgen.

And really, speech is only worth saying if it's powerful.

Chapter 31. There's no such thing as a life without suffering

The Buddha said, "There's no such thing as a life without suffering."

No one is perfect.

Not you, not the king, and not your average Joe.

Because if your life was perfect, everyone will be jealous of you and we all know that that will do us no good.

Even Gods, have battles and chaos on their level.

Which means the pain never ends.

Pain is what makes the best stories that we can tell to others on our success, that makes the best anecdotes.

Desiring to get to heaven is the closest you will ever get to a life without suffering.

There is no suffering in heaven, which is why trillionaires have no chaos because it's almost like getting into heaven.

In saying this, enjoy your time as you can as humans,
Because all life is suffering.

Then, why not give heaven?

In truth, the more we've suffered the more compassion God has for us, and the more wealth he gives us.

And, I'm not talking about negative suffering, I mean positive suffering.

Because people get jealous of you if your life is perfect. They don't get jealous of you if they know you have great suffering.

Usually, the more light a person has, the more they've suffered.

But there are tricks to overcoming suffering, "Believe you're nothing."

In the eyes of God, he sentenced us here to suffer for our sins - if you believe you are nothing, he will feel so much remorse.

God will have so much mercy for you and give you everything.

Because the more suffering you overcome, the more compassion God has and he will give to you everything you've ever dreamed of.

Chapter 32 - The light

Has anyone ever told you the story of the Buddha?

He was a royal prince who lived in a royal palace, whose fellow workers entertained him for years and kept him ignorant of pain and suffering.

One day, he decided to leave his royal palace and saw beggars on the streets and he couldn't understand why they had pain and suffering and illnesses.

As such, he left his palace to live among them, and wanted to understand compassion.

He then, died a beggar.

Although it can be sad to say that while the Buddha was a royal prince he did not give to the poor during that time, so it's evident to say that although he had all the light in the world, he had no consciousness for money.

I know of a person whom I won't mention his name, has all the light in the world because he gives what money can't buy, but is poor.

Now you would think, he has all the light in the world, wouldn't that make you rich?

Well, it does, in the sense that you have no sin, no debt, no baggage, so you save fortunes right?

Well, yes, the Buddha had all the light in the world, but he died a beggar. You see, you need the light to abstain from sin, and debt, and baggage, and yes, it does make you rich. But you also need consciousness on money to be rich. They are two different topics.

For 9 years I thought the light makes you rich and I did anything to be the light.

But I had no money.

Yes, I saved a lot of money and abstained from sin.

But I had no money.

Until later I met my soul mate Carlo, who taught me a lot about money.

Then I gave and built my wealth, to the point of having a rich partner.

I expanded my consciousness on money.

I have a best friend who is a multi millionaire has all the light when it comes to money, ie. he's expanded his consciousness on money to it's greatest heights but he has no spiritual light.

He suffers the worst addiction.

Just to give you an idea, the Allen Carr method to stop smoking takes on average a year, but will take my friend 4 years.

That's how bad it is.

He gives money to the low vibration and restricts the light. You're meant to restrict the low vibration and give to the light.

Which means, he will never stop repeating low vibratory light, because people will repeat what you respond to.

Mind, you he's so afraid to be the light,

So will he ever be free from sin?

I don't know.

But I hope so.

But what I am trying to say is that he misses out on more money long term, because it catches up on him in other ways.

The point is: do you need the light? Yes!

But you also need to expand your consciousness on money.

Chapter 33 - Opposite of ego

Now opposite of ego, I've mentioned many times especially in my first book, *The will of God*.

If you are afraid, get closer.

If you find it difficult to listen to light, listen.

And if you are in a hurry, slow down.

Going the opposite of thoughts.

It's like, if you get jealous of someone and overcome that ego, overtime no one will get jealous of you.

And that's why celebrities have such a nice consciousness, Because, they constantly work on themselves from within.

And, what you then get, is a person with a brilliantly nice consciousness, which is why they are celebrities.

Chapter 34 - Seek first to understand, before being understood.

Dean Graziosi says, in his book *Millionaire habits*, that people will love you, hire you, and buy from you, if you understand them, not they understand you.

And it's true.

Steven R Covey says, "Most people listen with the intention to reply rather than to understand."

It's like social media.

If you want everyone to be on your page, spend 100 hours on theirs and everyone will come to you.

Seek to understand first, and always listen to others before speaking.

If you want people to listen to you, spend thousands of hours first listening to what others have to say, before yourself.

And, that is the secret to having confidence!

Chapter 35 - God will punish you for wrong doings.

I myself have witnessed God punish people many times.
I've seen his work and I've seen his power.

When I ascend my consciousness so high, I meet God
and he only reveals himself to the worthy.

Exhibit A.

The doctor that medicates me against my freewill,
Is medicating the gifted for profit.
Each injection costs the government \$400.
And I would like to think that most of the people in the
psych ward are having a spiritual awakening, so yes they
hear thoughts and yes, they have super powers.
It's just the start to their journey.

A lot of people beneath the pyramid don't understand this
journey and deem us crazy.

Then it leads me to suggest that, it's best to keep your
secrets a secret.

Even until your brilliantly famous, don't tell anyone that
you're gifted.
Rather, humiliate your ego, and everyone will have
compassion for you.

People are shrouded with scepticism and envy, which is why we must silence our gifts. It could rub off on the wrong side.

Anyways, the point being.

God said he was destined to a lifetime of suffering of being mentally ill for 100 years with no money.

This time, it's his turn to be the patient.

Because everything is recycled.

And I've seen him punish other people in my life with the worst karma, until they are free.

Because, God will do what it takes to crush your ego, even if that means giving you the worst hardship.

Make no mistake that God will punish you if you hurt others.

Chapter 36 - Be true to your vow

This is where it gets interesting, because God adores people who are true to their vows.

If you say you're going to do something, do it.

If you make a vow, keep it.

If you swear to be the light, keep your words.

Because this is where the light comes from, by being true to your words.

We are often propelled with pure confidence if we come from a place of vows.

Especially if we are arising from pain to give to others.

And usually pain will motivate you to make vows, in which you will keep.

Because examples such as long periods of hardship will create so many vows to overcome financial difficulty, that eventually you will overcome your bondage if God sees that you are faithful to your vows.

We say many things like, "I'll be kind, I'll give more and I'll share more."

I try to keep all my vows; I don't think I've broken any yet. But if I say I'm going to save a billion lives if God helps me arise from bondage, I'll do it without breaking a sweat.

Chapter 37- Numbers do not lie

Here are the top ten countries that want their citizens to have a good life (ie. are generous with their welfare payments):

The Netherlands

Lithuania

U.K

Bhutan

Iceland

Sweden

Spain

Denmark

Sweden

Canada

All of which are in the richest countries according to:

<http://www.worldsrichestcountries.com/>

¹

Except, Lithuania and Bhutan.

That's 8/10 countries who care for the poor are the richest countries.

Therefore, giving to the poor makes you wealthy.

The top ten countries with the highest cancer rates according to:

<http://blog.dana-farber.org/insight/2014/06/which-countries-have-the-highest-and-lowest-cancer-rates/>²

Are:

Denmark

France
Australia
Belgium
Norway
United States
Ireland
Republic of Korea
Netherlands
New Calodonia

4/10 of these countries are also in the top richest, which, means money and cancer are in correlation, therefore, the more richer you are the more evil.

But before we speculate that money correlates to evil, let's look at stealing.

Stealing is often, a core root of smoking, and smoking leads to cancer.

What are the number one reason people steal?

Lack of money, or debt or lack of spirituality.

From 1996 to 2007 the Howard government managed to lead Australia into the richest countries for a long time and was generous with welfare payments.

Now that it's 2017 under the Turnbull government they are crunching down on welfare payments, which is the greatest concern.

Because a country that does not care for the poor, is a poor country.

Because a country that does not care for the poor, is a poor country.

And if you do not care for the poor, crime rates go up because people steal, then cancer and then, the perpetuation of poverty.

But let's go back for a minute.

Why is money and crime (evil) in correlation?

It doesn't mean money is evil.

It just means that very few people have money intelligence with the more money they have.

It means, there are few people in this world who use money for the greater good.

Money is not the root of evil, this belief will not attract to you more riches, because money used for the greater good can be good.

It just means, countries with more money, also have an average correlation to cancer.

Because let's face it, there are many people in this world that go corrupt when it comes to money and few know how to utilise power.

Because like they say, “With power comes great responsibility.”

3 of the countries that are generous with their welfare payments also made it on the top 10 cancer list of 2012.

What does this say?

Money correlates with evil, with evil comes cancer.

We all know that the root of cancer is true evil.

How do we know true evil is associated with cancer?

Let’s take a look at the top 10 countries with the highest crime rate.

Belgium

Sweden

Columbia

France

Jamaica

United Kingdom

Germany

Brazil

India

United States of America

3/10 countries of highest crime rate made it in the top ten cancer list of Dana Farber.

Which shows, that cancer is correlated to evil.

4/10 of these countries are in the top richest, which just proves that money correlates to more crime and evil.

Because the more evil you are, the higher your chances of having cancer.

But what about abortions?

Abortions lead to smoking.

Here is the countries with the highest rate of abortions.

<https://fellowshipoftheminds.com/2011/11/01/abortion-rates-for-101-countries/>³

The countries of highest rate of cancer were: Denmark, France, Australia, Belgium, Norway, United States, Ireland Republic of Korea, and Netherlands, that's 9/10 of the highest top 10 countries with cancer are in the top 100 countries of the highest rates of abortions.

Let's take a look at Debt:

<http://learn.stashinvest.com/10-countries-with-largest-national-debt-to-gdp>⁴

1. Japan
2. Greece
3. Portugal
4. Italy
5. Bhutan

6. Cyprus
7. Belgium
8. United states of America
- 9. Spain**
10. Singapore

These are the countries that spend more than you have.

And, are in need of financial intelligence.

If you know yourself, you will know your country.

If you know yourself, you will know your country.

You can still be rich and have spending problems, i.e. spend more than you have.

2/10 of these countries are generous with their welfare payments.

Which means, they have money, but are also in debt.

What you want is a country in surplus. (No debt).

You can still have money and be in debt, because you're spending more than you have.

The top ten countries with the highest murder rates are:

Columbia
South Africa

Saint Kitts and Nevis
Swaziland
Jamaica
Guatemala
El Savador
Beliz
Venezuela
Honduras

10/10 of these countries are in the top 100 poorest countries according to this site: (the bottom 100 being the richest, it goes by rank.)

<https://www.gfmag.com/global-data/economic-data/the-poorest-countries-in-the-world?page=125>

So what does this say?

Murder makes you poor.

And then, according to this site:

https://photius.com/rankings/2017/population/death_rate_2017_0.html6

All these ten countries of highest rates of murder are also in the top 100 highest rates of deaths by country.

Huge coincidence?

Or just karma?

Here are the worst 20 countries for spousal abuse:

<http://www.worldatlas.com/articles/20-worst-countries-for-spousal-abuse.html7>

All 19/20 countries for spousal abuse are also in the top 100 poorest countries. Except for Gabon, which is at rank 123, which is still poor.

There you have it, abuse makes you poor.

According to this site,

this is the top ten countries with the most debt:

<https://www.usnews.com/news/articles/2011/01/28/the-10-countries-with-the-most-debt>⁸

4/10 being Lebanon, Greece, Italy and Iceland, who are also listed in the statistics of thyroid problems by country.

Here is the site of highest thyroid problems by country:

<http://www.rightdiagnosis.com/t/thyroid/stats-country.htm>⁹

The USA is not listed in the largest debt, but we all know they have the largest debt.

And most surprisingly the highest rate of thyroid problems by 21.5 million.

All the countries with the highest debt, also have thyroid problems, of the second diagram being 10/10 countries with the most debt, also have high thyroid problems. Being in order, the United States [21.5M], China [95.5M], Japan [9M], Germany [6M], France [4.5M], the United Kingdom [4.5M], Italy

[4.2M], Brazil [13.5M], Canada [2.3M], and Russia [10.5M].

So what does this tell us?

Thyroid problems are the result of evil speech.
Which means, evil speech is correlated with debt.
That's a shocking high rate of thyroid problems, if you ask me, compared to the other countries.

According to this site this is the highest rate of prostitution:

<http://ugblizz.com/10-countries-with-the-highest-prostitution-in-the-world/>¹⁰

10. Thailand
9. **Germany**
8. Malaysia
7. **Brazil**
6. **China**
5. Nigeria
4. Philippines
3. Peru
2. South Korea
1. Venezuela

China, Germany and Brazil face the most debt.
What are your thoughts about the other country's state of finance? Poor or not poor?
Germany is a rich country but nonetheless still in the top ten for debt.

As for Malaysia being a rich country of its region, more money more evil? Lack of financial intelligence?

What does this information tell us?

That, lust is a deadly sin.

Sex is a sacred thing, and according to the Zohar, it must only be used to birth a child.

Mind you, virgin births create heroic children because the desire between both parents are strong.

That is, there is more love between them, as they've done the restriction.

Now, let's look at gamblers.

<http://www.worldatlas.com/articles/countries-that-gamble-the-most.html>¹¹

1. Australia
2. Singapore
3. Ireland
4. Canada
5. Finland
6. Italy
7. Hong Kong
8. Norway
9. Greece
10. Spain

These are the countries that Gamble the most. Australia being at the top.

So then, what does this tell us?

Lack of love to other gamblers? And lack of financial intelligence?

If people are taught to give more, they wouldn't feel the need to gamble.

Australia, Singapore, Canada, Finland, Norway, & Spain, that's 6/10 countries that gamble the most, are in the richest countries.

More money= More problems?

Let's take a look at the most generous countries.

Here is the top ten of 2017.

10. **The Netherlands**
9. **United Arab Emirates**
8. **Ireland**
7. **Canada**
6. **Australia**
5. **United States of America**
4. **New Zealand**
3. **Kenya**
2. **Indonesia**
1. **Myanmar**

6/10 of these countries of generosity are also in the top richest countries.

There you have it!

Generosity makes you rich.

But remember, to gain financial intelligence and expand your consciousness on money, so that you shall use money for the greater good and grow even richer with the more money you have, to this day.

In 2017, these are the richest of the world with the most financial intelligence and the go to people for financial advice.

20. Wang Jianlin
19. Sheldon Adelson
18. Li Ka-shin
17. Alice Walton
16. S. Robson Walton
15. Jim Walton
14. Sergey Brin
13. Liliane Bettencourt
12. Larry Page
11. David Koch
10. Charles Koch
9. Michael Bloomberg
8. Bernard Arnault
7. Larry Ellison
6. Carlos Slim Helu
5. Mark Zuckerberg
4. Warren Buffet

3. Jeff Bezos
2. Amancio Ortega
1. Bill gates

Bill gates is actually very humanitarian when it comes to third world countries, he often says to go visit extremely impoverished countries and give aid.

There you have it!

The people who have the most financial intelligence and the most light when it comes to money.

They are the people who have given the most!

If you want to expand your consciousness, read up on all their books and videos.

And, get them while they're on a crest!

Chapter 38 - Don't judge

Jesus said, "Judge not that ye not be judged, for with that ye judge, shall ye be judged, and measured to you again."

Jesus said, "Judge not that ye not be judged, for with that ye judge, shall ye be judged, and measured to you again."

For a long time, I overcame my judgments of other writers just to write well.

The same is true of music and any other talents.

Overcome your judgments and you will sing and write exceptionally well.

It's so easy to judge.

But what we don't know is that it creates karma for us.

As such, don't do it.

Don't judge a single person on the planet.

And you'll never have chaos, baggage and etc., again.

Let me share an example:

Judgment makes you go and do the extreme opposite of the continuum, one example I like is from the book, "Secrets of a millionaire mind," the parents were extreme cheapskates growing up, camped in a tent instead of a hotel, clipped coupons only, the girl would later as an

adult buy expensive things, max out her credit card and face severe debt for lavish spendings as she grew up. We often, don't realise our judgments, but we usually respond as the extreme opposite, which is just as bad, and in the words of Jesus, "Will be measured to you again."

Exhibit A: Person A judges person B for being weak. Then he goes on to be strong, but just passes the judgment on. Exhibit B: Person B judges people for being kiss ass, so he's a little bit rude and gets rejected in his relationship. Exhibit C: Person C judges people who speak a lot, and lives the rest of his life mute. Exhibit D: Person D Judges people for not being good enough, and is ungrateful, his ego gets worse, and no matter how much you give to him it will never suffice because his ego gets worse and worse.

Another example:

Short people judge short people because tall people judge them, boring people judge people for being boring because funny people judge them, dumb people judge people for being dumb because smart people judge them. Do you see how it gets passed on? Smokers judge smokers because non-smokers judge them.

Judgment is a double edged sword, it gets you not the other person.

Never judge!

Chapter 39 - Evil people think they're good

The problem with most problems is that evil people think they're good.

So they don't change.

What happens when we think we're good?

Everyone around us thinks we're perfect and no one changes.

Because in this life, no one is perfect and everyone has sin.

In truth, we must believe we're wrong or are the evil ones.

And then we will bring on change.

Usually most people like terrorism, are conditioned from young to believe good people are evil, so what they do, they think they're in the right and that they're the hero, and that good people are bad, but they are not.

Then, they go around hurting good people because they are conditioned to believe the other side is evil.

Therefore, evil people think they're good, and good people humiliate their ego and think they're evil.

Chapter 40 - There's no such thing as perfect

Now, let's have a look at the gods.

No matter how evolved you are you're always going to encounter problems, that naturally you must overcome.

There's no such thing as a perfect life, or being perfect.

Just more evolved.

So what you really want is someone who is more evolved, and someone who will tackle life with you.

The only thing you can do is love and accept people as they are, for whatever baggage they have, because everyone makes mistakes and everyone has suffering.

And they will change on their own, if you love them just the way they are.

Why is it that no one is perfect?

Because we need chaos to have light.

Life is chaos and light, chaos and light.

If you love people just as they are and help people overcome their problems rather than deem them for the inevitable, they will change on their own faster, and will evolve higher.

Because people evolve if you love them, especially where it's difficult, and then you will evolve higher.

How you treat the low vibration is how God will treat you.

How you treat the low vibration is how God will treat you.

God's are more evolved,

It's their consciousness that is really nice, but it doesn't mean they don't have problems.

It just means... they've overcome many.

Superman has an opposing force, God has the Devil.
And the gods have their fair share.

Why must we have an opposing force?

Because, there must be balance.

And, it motivates good.

Chapter 41 - Blind faith

When we trust the light more than anything and carry on with blind faith of all our intentions, we never feel insecure.

The goal is to trust your karma more than anything, and if you've done everything I've told you, the light will always be right behind.

To trust your giving, to the point where you'll always have abundance, and to save lives, you will never die.

Trust your karma,

Trust your karma

And, surrender to the will of God.

After all,

There's nothing without a karmic signature on it.

Chapter 42 - Transforming darkness

For a very long time, I transformed everyone's darkness.

Because people can't break out of their karma, unless you transform it for them.

Anything you threw at me, I transformed.

I silenced people's ego, overcame their evil eye and restricted their anxiety.

It feels good when someone transforms you your darkness.

As you don't know what holds people bondage.

But you can break them out of their spell.

People find it difficult to overcome their chaos, they don't know how, so if you have more light than them, it is your duty to transform their chaos.

As, the more must always help the less.

The more must always help the less.

Chapter 43 - Don't compare

What I like to say is, gold is gold, diamond is diamond.

It wouldn't be right to compare them both would it?

We all get envious of other's who are doing better than us,
But comparing won't get us anywhere, so don't do it.

You don't want people envious of you so don't compare yourself to others.

There are also other neat tricks like not listening to a low vibration, and ignoring the low vibration so that they do not repeat their behaviour.

And, encouraging everything that comes to money.

And in doing so, you will watch your wealth grow.

But overtime, you will learn many of these neat tricks.

Use your consciousness.

Use your consciousness.

Chapter 44 - Importance

We are governed by the things we regard as important.

If you believe giving is important, you will give.

If you believe money is important, you will get a job.

If you aren't functioning as per se, then it's time to rearrange your priorities and of the things you find important.

The one at the top, no.#1 will be the one that propels action.

So say for example at no.#1 you have love and family.

You will put your family first and spend more time with them.

If giving is no.#1.

You will tackle through all sorts of storms to give.

What do you value most?

What do you find to be the most important thing to you?

Mine is:

No.#1, Family, love and giving.

No.#2 Money

No.#3 Knowledge

Chapter 45 - Perfect love

If you can get your love perfect,

You can write a book, do a movie or make videos.

Because there's no point in doing anything, if our love is not perfect.

But of course, it's never a good idea to be too perfect, as people get jealous.

Rather, be imperfect love to be perfect.

The consciousness has to be clear and pure for you to be in the trillions.

Imperfect but perfect love.

How beautiful.

Chapter 46 - Share your blessings

And, last but not least.

Sharing your blessings, magnifies your abundance.

Your happiness, your wealth, and your spare income.

The moment we receive it, we must have a sharing consciousness, because we are given plenty to share it with the less fortunate, and in doing so, we create more of it.

Everything that comes back, we must share.

Especially when the light returns, we must have a sharing consciousness and we will magnify that abundance if we share it with others.

For example:

When the light returns, or when I get tips, I immediately share my good will with the homeless, or with family.

When my partner gives me large sums, I immediately donate to charity.

When I get a good job, I share my extra earnings, and my fortunate success.

Therefore, share your happiness, share your success and share your wealth when you attain it, and by doing so, you will create more of it.

SECTION 2- THE RAINBOW BODY OF MONEY

CHAPTER ONE - GOD

As I famously shared a story in my first book, this is the rerun for the rainbow body of money, let me share:

A man had a very annoying wife, who was poor, complained a lot and had money problems beyond belief. Determined to get away from her, he gave and gave endlessly to the world, like no tomorrow.

At the end of his life, God looked at his akashic record and sent him to Hell.

He exalted, "Why? I gave and gave like you wanted me too, with the entire world."

God said, "You gave and gave to everyone but your wife, to get away from her, if you do not love your wife, how can I expect you to love the rest of the world?"

"I asked you to do one thing, and one thing only, and that was to love thy neighbour as thyself, and you went and did the exact opposite!"

Distraught, God sent him to redo his life over again with the same annoying wife, with the same money problems, and the same suffering, until he learned to love his wife.

The next guy kneels down before God, God looks at his akashic record with all his thoughts and deeds to the last detail, and he sentences him to a 100 years in hell.

He exclaims, "But why! I loved thy neighbour as thyself, and gave to thy neighbour as thyself, like you wanted me to."

God exclaims, "No you didn't, this man asked for money once, and you did not give here, and this homeless man slept on an empty stomach because you had spare change

and did not give to him for him to eat, and this woman asked for help once, and you refused to lend her money.” The man exalts, “But what about everything else! How can you condemn me to 100 years when I corrected everything else.”

God said, “But you blindly ignored one correction, when I clearly said to you, that everything was a karmic correction. How can I believe that you truly cared for those you gave to, and that you truly love thy neighbour, when many slept on empty stomachs because you refused to give on occasions?”

God continues, “You are to redo your life over, until everything is perfect, with the same corrections and the same suffering until you learn to get it right.”

CHAPTER TWO - BELIEFS

Beliefs carve our entire world like a canvas, it starts out as a rough draft, then becomes something bigger than your own eyes, how well the picture turns out is in your core beliefs - your inner most world of positive and non-destructive beliefs.

If you change the outskirts, the painting, the brush strokes, it's not going to change the core imagination that set's to paint the original image will it? You could alter things slightly here and there, but beliefs already created 80% of the canvas, you'd have to erase your entire belief system to a new paradigm, and start over, and what you get is a different picture, different canvas, and a wholly new masterpiece. But beliefs are like the imagination, it initiates the painting, and redirects the masterpiece to a beautifully contrived piece of work.

Let's take Exhibit A.

Rich people are corrupt.

The person who has this belief could be making one million dollars, but avoid having money to be "corrupt" so he'll unconsciously get rid of his earnings.

Or he could be making unconscious commands to himself to be corrupt to people poorer than him.

Because whatever your beliefs are, are the commands you are unconsciously creating for yourself.

Let's take Exhibit B.

Rich people are bad.

The person with this belief, no matter how much money he is making, will think having money is bad, and will

avoid being rich so he will not be deemed: “Bad.” Or he will be bad to those poorer than him, because he is telling himself to be bad as a rich person hence, rich people are bad.

We must be wary of our beliefs 24/7 just like our thoughts, I touched up on this in the book “The will of God,” with light, but the same token is true with money.

Do you want to know what beliefs look like from a clairvoyant perspective?

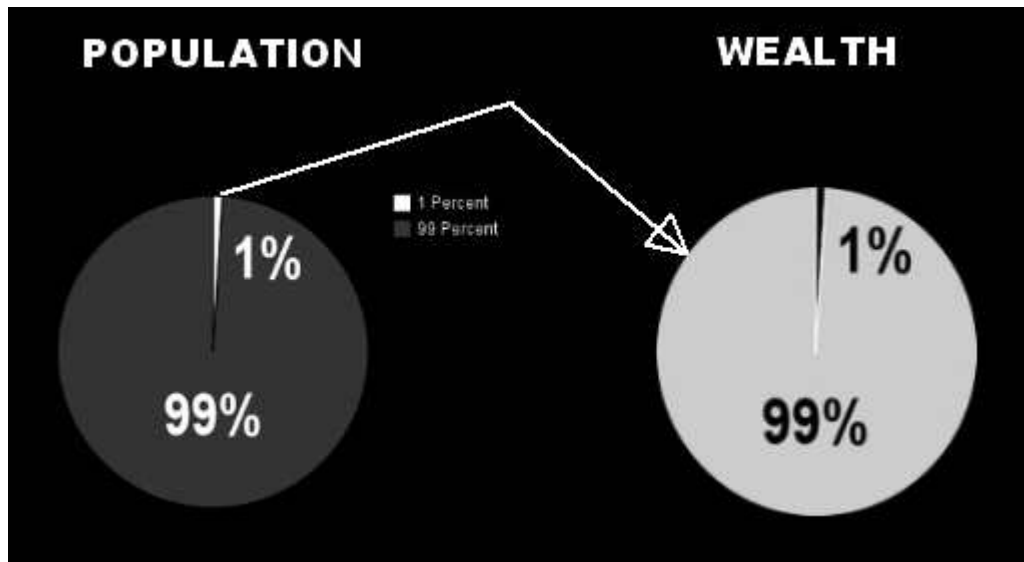

6

This is what the average population looks like with their destructive beliefs, could you imagine what the canvas would like look as the final produce?

Let’s take a look at the average population and how well they are doing with this consciousness:

6

7

Is it working?

Clearly the 99% have only 1% of the total income, so then clearly this way of thinking is not working.

I want you to take 5 mins, to clear all your old thinking daily, and replace it with new, truthful and positive beliefs, that could take years to condition, until all your paradigms are standing in the right direction, and your holding your final canvas with steady hands, and with steady confident beliefs, hence the final stroke?

Beautiful beliefs = you guessed it, a beautiful masterpiece.

Your beliefs could look something like this:

The rich work hard for their money, they are kind and generous, who have a high degree of compassion for the poor. It's light and chaos, one trivial person should not punish the rest, the rich are dedicated, self-educated and work extremely hard to make money work for them. The rich are the most generous as the Forbes list contain the

7

most philanthropists, nothing is random, and people get the life they chose to work hard to have. The rich are close to God, because a life without sin is an abundant life, and the rainbow body of money entails a life without money sin, therefore, the rich are the most selfless, and holy beings. To say that rich people are bad, is like ignoring the law that everyone is unique with different piloting belief systems, that gave their “Life canvas.”

Therefore, be wary of your thoughts, 24/7, as they are piloting your future.

CHAPTER THREE

Let's take a look at what makes billionaires, billionaires.

The industries that makes the most billionaires on the Forbes list are:

1. Finance and Investments: 267 billionaires (15% of worldwide total)
2. Fashion and Retail: 221 billionaires (12% of worldwide total)
3. Real Estate: 163 billionaires (9% of worldwide total)
4. Technology: 159 billionaires (9% of worldwide total)
5. Manufacturing: 157 billionaires (9% of worldwide total)
6. Diversified: 145 billionaires (8% of worldwide total)
7. Food and Beverage: 141 billionaires (8% of worldwide total)
8. Healthcare: 113 billionaires (6% of worldwide total)
9. Energy: 80 billionaires (4% of worldwide total)
10. Media and Entertainment: 74 billionaires (4% of worldwide total)

What does this tell us?

That there is no one way to become a billionaire. If you provide a good and service that makes every one happy, then why not go for it?

Have you know, when the PC was first innovated, the vision behind that was to create a quality product that was envisioned to be affordable in every household, by every person, by bill gates.

And, another African billionaire, was to provide a good and service catered to needs, that was quality at affordable prices, as needs are always in demand.

Mark Zuckerberg's vision for facebook was to create long term solutions that benefit everyone despite upheavals.

Another billionaire, became a billionaire by introducing people to good deals.

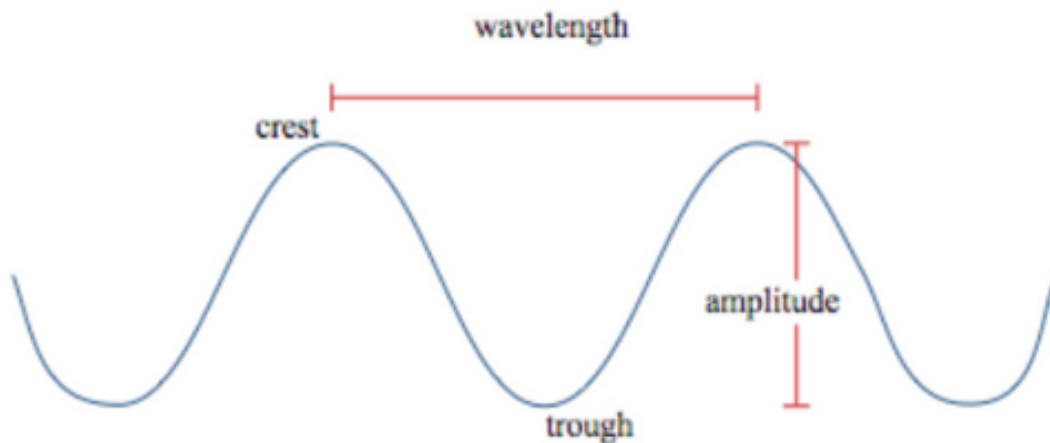

Some shop til' they drop, and others create a network of people far more expertise than they, like a mastermind group of Einstein's and Nikola Tesla's. Yes, these people exist.

Steve jobs, had a vision, and it saved Apple from hitting rock bottom, he wanted to create a service they gave customers a lot of digital benefits, and by sticking to his philosophy, "The whole is greater than its parts" he endured apple to be the new "digital hub for our emerging digital lifestyle."

Vision, aside, let's have a look at the data.

A majority of billionaires invest as the no.#1 means to preserve wealth, and keep their wealth.

If you have a look at this diagram:

8

Then it would be wise to say, that a smart dollar would invest in people and business already on a “crest” or “bloom.” And, will continue that way for the next ten years. Warren buffet says, “If you can’t imagine growing with a business for the next ten years, don’t even bother to invest.”

Better yet, why not invest into people who are already billionaires [on a crest], clearly “billions” means they are already a “success.” With no debt, and maximum profit like Facebook.

I predict that Google will be the next university and Amazon in the next ten years.
People are going to look in their direction for financial, investing, and spiritual guidance.

8

More technological platforms for teachers and free educational platforms that pivot our success as an evolving society, that's going north.

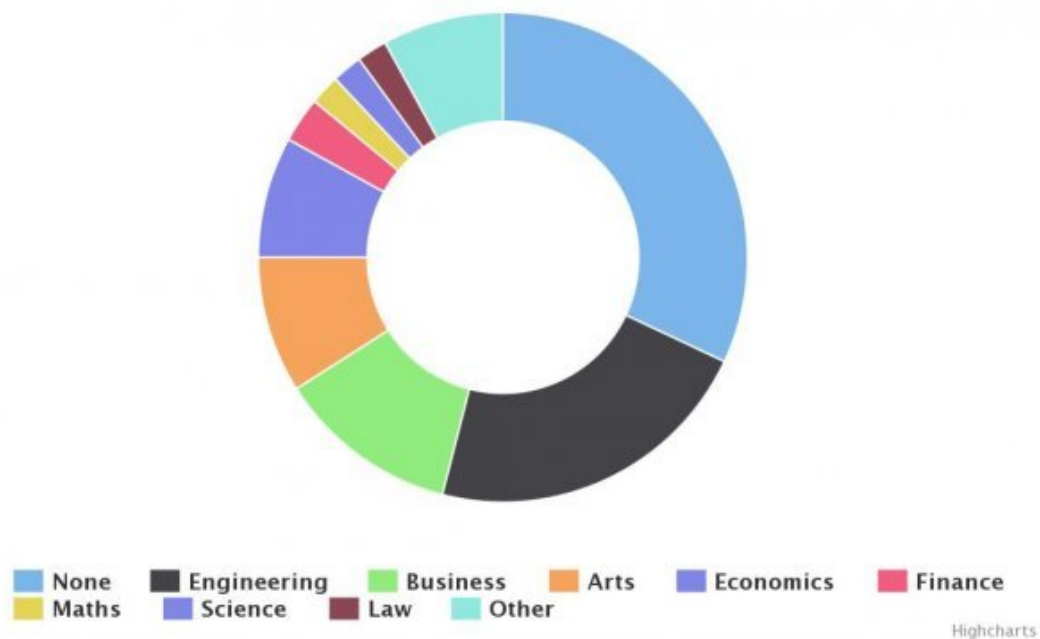

Mark Zuckerberg does say, "Stay up to date," as technology advance, society evolves, and the world is getting smarter, we need to keep up with change, and evolution, as a growing society.

CHAPTER FOUR - HOW DO THE 1% THINK

If you google and correlate how billionaires think and their habits, what you find will be interesting.

They all meditate, they all exercise, they all think different, are all self educated, they all have a vision, they all have the right core beliefs, they live below their means, they read a lot, they get things done, they don't take failure for an answer, they move past their mistakes, they overcome their problems, and they all pursue what they love doing.

What did the world's richest people study at university?

9

Clearly, education is not a prerequisite, although many billionaires do have degrees, many have not and just did as well the same. Therefore, having a degree is not a constant variable [a constant]. But being self-educated is a constant variable meaning that if you correlate all their

9

habits, all billionaires educate themselves constantly and read a lot of books, hence being self-educated is a constant variable, a prerequisite to success.

Let's take a look at religion.

Top 50 Billionaire Breakdown

10

So the no.#1 religion that makes billionaires is Christianity, the belief in Jesus Christ.

Scot Anderson, says the bible contains a plethora of secrets on prosperity it's no wonder Jesus's light is gi-mega rainbow body, he's educated the most billionaires, and gave the most light to the entire world. At the beginning of

10

the bible, Jesus claims, that only the “wicked fear the light.” And, some billionaires claim to get expert business practices from the bible.

Jesus has a high degree of ethics and morale, it's no wonder his light is eternal.
And, that his karma is 1Mx light.

Christianity, we are onto you!

The next data, I wanted to show you is Judaism. In the average population that are not billionaires, it's Judaism that is the richest religion. If you look at their core beliefs, they will wait til' your dying day to comfort you, if you are dying, and they will never risk a life to save another, “as all life is sacred.” Smokers would not risk their lives to save others, hence the reason they are dying.

The high degree of ethics in Judaism is unshakable, it's no wonder they are rich.
They believe in God and only God, in karma, “An eye for an eye,” and justice. “That God will punish the wicked,” and they will never leave thy neighbour starving. Their compassion for the poor is unshakable.

And, numbers do not lie: Do they deserve their wealth or what?

Income Ranking by Religious Group: Median Annual Household Income in 2000 (in U.S. Dollars)

CHAPTER FIVE - MAKE PEOPLE FAMOUS

“To increase your worth is to become famous.”- Mj Demarco

The only way to fame and fortune is by making other people famous.

Fame is a process that happens over the years, not overnight, and if it's overnight, it's short lived.

Long lasting fame, happens over centuries, making other people famous.

Boyce Avenue makes covers with extremely good talented singers and makes them famous, hence their 3 billion views.

Conan O'brien, does celebrity interviews. Making other celebrities famous and recognized. He also advertises their movies, giving you the latest film to watch. Hence, his fame and fortune.

Oprah, interviews famous authors, or she makes writers famous. And, introduces you to top selling books, hence her fame and fortune.

Rav berg, introduces people to very talented individuals and his enterprise “Kabbalah” strives to make you famous, rich and fortunate.

Joe Vitale, recommends you to a lot of other famous authors, and individuals throughout his books.

If you're going to be famous, heads up, use your fame for the greater good, as every second is precious. The power that comes with fame and fortune, people look to you as a model, so be careful of how you use power, your speech and your modeling.

However, some author's say that time is scarce. This is far from true. Time is unlimited, in the sense that we have unlimited lifetimes to finish our work, if we use it wisely. Time is not scarce, it's sacred. Just like money is unlimited, and more can be made, the same purchasing power of \$5, can buy item A,B,C and D, if it were to be passed around. Money is not scarce, it's sacred. It's also unlimited, if we run out, more can be created, so there's plenty to go around.

Thinking time is scarce will only limit you. Thinking it's unlimited, you will take your time, to pursue the billionaire title for as long as it takes, for however long it takes, and you will also make long-term goals, as a result.

Consciousness is also sacred and unlimited. Nikola Tesla, can recite every text book he's ever read with his photographic memory, memory is unlimited so long as you fill your mind with beautiful content and thoughts. I always believe people are more capable than computers, they have the power to learn, understand, and read as much content as they want, and continue growing, and remember everything like Tesla, so long as it's light.

As Einstein says, "If we are not learning, we are dying," and as T Harv Eker says, "If a flower is not growing, it's dying."

CHAPTER SIX - SELF-TRANSFORMATION

Scot Anderson says, imagine a jar of marbles. Each day you get a certain amount of marbles. Reading time, will place 5 marbles in the jar, meditation will place 3 marbles in the jar, and listening to audios will place 2 marbles in the jar, and change and reinventing yourself may place 10 marbles in the jar. And, by the end of the day all marbles are used up. If all your self-transformation marbles get used up, you have used your day wisely.

And, this is exactly how self-transformation should be. Not easy work, but investing in yourself is probably the best thing you could do, as we are not promised tomorrow.

Think of it like this, life will force you to change, if not worse case scenario, cancer, if you do not change. Self-transformation ensures you are ahead of the game, and of life's rat race, so you are guaranteed tomorrow and a better future, all because you "chose" to invest in yourself today, and "change," in exchange for a longer life span, and better tomorrow.

Each "today" you invest, is a thousand "tomorrows" in your spiritual bank.

Every day, the sun battles the night, to give light the next day.

The sun nor complains, gives up, or takes a holiday. It does, what it does, for the benefit of humanity, and continues eternal service so we have light to do our jobs, to eat, live, and venture.

Do you ever think about the “good karma” the sun has?

The night is metaphoric to “death” while the light the sun gives is “eternal life.”

The point is, we do the work we are required to do each day, and the investment?

More tomorrows.

CHAPTER SEVEN- GRATITUDE

Most of you by now are familiar with the concept of gratitude, because I preach it an awful lot.

Take for instance an example of a lack of gratitude, Justin the ken Barbie look alike who's had 99 multiple surgeries to look like ken Barbie, feels like he needs 99 more to go until he's complete.

A real life example of how ingratitude can pull you down the number line to a -100.

The lesson?

Be grateful for everything. How you look, your money, and your life.

If you are grateful for everything, especially your lows, where it is most difficult, that's when the most miracles are revealed.

Appreciate no money, appreciate bad life, appreciate when mum tells you off constantly, appreciate a bad day, appreciate when you feel ugly, appreciate all the other lows, because that's when God pays you the most.

If you are grateful, miracles will follow.

I find that gratitude is the multiplier of money. Every time I am grateful for people who give me knowledge, time and money, I give back double, I raise money for them, or I give them more service back, I go the quadruple mile.

Why?

Because I am grateful.

The way I see it is, gravity like unhappiness pulls you down, it's the opposite of "flying" it's only job like the ego is to pull you down, and to stay flying you must fight gravity.

Gratitude is the buoyant antidote to stay afloat. Practice it everyday, in fact, Oprah in her book, "Things I know for sure," says, to have a gratitude journal, and this works absolutely wonders.

I know, that when I use her technique I see success everyday, to the point I believe it and then I share happiness and success. Because you can lose what you have by not being grateful, aka Justin, and therefore to stay buoyant, keep a gratitude journal until your soaring so high, you are always ahead of karma.

CHAPTER EIGHT - TODAY

Today is the miracle day, that only counts and brings fruition to your destiny.

You cannot erase the past, and you cannot live in the future, of a day that's not guaranteed. But you can live in today, and create a better tomorrow as a result of living the best today.

Tomorrow is not guaranteed. But it is, when today is fulfilled.

And, each day that is fulfilled, brings thousands "tomorrows." Every "tomorrows" become your future, that is, predestined.

If today you are unhappy, tomorrow gets worse, therefore today is the "best" day of your life.

It means, today you are "Healthy," "Wealthy," and "Prosperous."

This belief system made me extremely healthy because a lot of people "Believe" they have bad health, and that belief system dictates their future.

You need to believe you are healthy, wealthy and prosperous, and only then will you up the integer to wealth, health, and prosperity.

Because life get's better or it gets worse.

Negative emotions, negative thinking pulls us down like the forces of gravity down the number line, to -100, while all things God like hope and faith, understanding and wisdom, skips the integer by 10 up the number line to abundance, 100,000.

Tomorrow will get worse if you adopt negative thinking.

Therefore, believe, you are healthy and wise.

CHAPTER NINE - DELAYED GRATIFICATION

What was all the fuss about the movie “Forest Gump?”

I think it was a film all about waiting, for his one true love.

And what can we learn about that film?

Perhaps you remember the saying, “The best things comes to those who wait.”

And it is true.

All life is waiting, for a billion, for love, and for miracles.

They say if you can wait a very long time, to drink your coffee, to have your first meal, to say powerful stories, ten years to tell sacred stories, to go on holidays, to eat seafood, to give money, to have a smoke.

The result is miracles.

If you apply the delayed gratification for everything, every aspect of your life.

What you become is a very powerful entity, and very strong willed.

But you need to keep it up for life.

You do it for a lifetime, speech, words, actions, giving, story telling, everything, until it's no longer an issue.

I waited 7 years to make videos, to write, to do phenomenal things.

Ultimately, the longer you restrict inspiration, the greater the miracle that comes back tenfold.

More knowledge, more wisdom, and more miracles are the reward you get for delayed gratification.

CHAPTER TEN - FREE WORK

I did free work for 9 years, before I became a life expert on philosophy, writing, and spirituality.

I'd say the price is worth it, people don't charge me for expert advice, they give freely knowledge to me, and I've overcome insurmountable problems from free-giving.

Only because I've given just as much.

Free work gives you the free skills you need and experience to become an expert, you won't get anywhere charging ridiculous prices for futile service.

But you have everything to gain.

In fact, many rich people I know nominate certain times of their hours to do free work, free surgery to the poor, free optometry for the poor like the Bates method, and free programming like what my husband does for people with his skills.

The rich are generous with their time, and know that what they trade for free work is unlimited knowledge.

Wouldn't you want to be an expert at what you do?

Go ahead, and give freely.

Many of the rich raise money for charity, because if you think about it, that's the wealthiest way to generate positive karma for yourself. To raise millions for charity is the

most rewarding thing you could do, and the rewards are infinite, you get more from it financially than what you give.

Actually, Joe Vitale mentions in his book, “The attractor factor,” that the subconscious plays a huge role in attracting miracles.

When the subconscious let’s go of a certain baggage, it attracts more miracles to us in the form of financial gain or prosperity.

Usually this is triggered by free work, or the light of sharing, where deep internal changes lead to drastic outward changes in reality.

CHAPTER ELLEVEN: THE DEADLY SINS

There is a reason the deadly sins are referred to as “Deadly.”

I’ve had smokers smoke almost four thousand cigarettes on my Facebook out of pure greed.

Some of them think they are making money off me, follow me for years while puffing away endlessly at a smoke, while I lose thousands of dollars over their addiction.

Greed does not make you money even though it feels like it at the time, don’t do it.

The Englishman killed the chicken that lay the golden eggs, because he wasn’t producing enough of them at a faster rate. So what did he do? He cut open the chicken for more eggs, and the chicken died.

Greed will kill you.

Cancer patients, suffer sever stomach pains, but because their cigarette addiction is tied in with judgment, they continue smoking endlessly to the death despite the insurmountable stomach pains they are in. Why? Because judgment is a lethal force beyond your control that makes you do things beyond your control, so they cannot stop unless they overcome judgment, even beyond the death.

The deadly sins will kill you don’t do it.

Greed: This person wanted more and more cigarettes, did it work?

13

Greed: This person wanted more and more food, did it work?

14

CHAPTER TWELVE - IMPORTANCE

Once you've placed your beliefs it's important to rank its importance.

My number #1 beliefs are: Love, money and freedom.

I always put my husband first at all costs because I value love.

And because I value money, I spend everything on him and give gi-mega-ously.

What do you feel like is the most important belief?

If you feel as if giving to the poor is no#1 priority, then you will do just as that every week.

If you value investing in yourself, then you may read three books a week to accommodate that belief.

If you value long-term solutions, you may choose to not go out partying every week to accommodate those beliefs.

If you value people, you will always find enriching relationships, if you value people-you will always care, you will always be prosperous, and everyone will care about you.

Let me give a better example.

I once had a hard time cleaning the bathroom because my beliefs were "It's too much work." Then I replaced it with

“It’s only once a week.” And by Moses, it was a breathe of fresh air. Cleaning the bathroom happened in less than minutes.

I once went to the bathroom excessively for months, and under a lot of investigation, I realised my belief system was, “I have a weak bladder.” I changed it to “I have a strong bladder.” And the excessive trips stopped.

This is just an example of beliefs, but because I value financial freedom, I sacrifice a lot of instantaneous pursuits, like shopping, and junking, in pursuit of a long-term financial freedom.

I value it as a no.#1 priority, therefore it governs all my choices and makes it easy to say no to a lot of things.

CHAPTER THIRTEEN - SAVING LIVES

Jk Rowling is 52 years of saving lives.

Mariah Carey is 42 years of saving singing.

Because words are sacred and words are wise, if you only opened your mouth to save lives, what you get is fulfilment.

Make no mistake that every word that comes out of your mouth is precious, and used only to share truth, knowledge and wisdom.

If you keep up to this rule, by nine years, you will learn at the speed of light, and exponent your knowledge in magnitude.

Yes, it's fun, and you can handle it.

Because words are sacred, let me go by the rule of four for good listening.

Empathy: You must be happy, I feel angry for you, you must be so hurt.

Open questions: Why are you angry? What lead to you being hurt? How did that happen? How did that feel?

Reflective listening means understanding in your own words: You were hurt because she betrayed you, you are angry because the argument escalated, you work really hard for what you have, you must be extremely happy.

Sharing something personal that relates: I used to be an angry person, but then time was usually always the answer. I love being happy, I was happy the other day over a success that I expected, and it felt good.

Yes in that order.

The art of sacred listening.

Usually if you get it right, it feels extremely blissful.

CHAPTER FOURTEEN - MAN FEARS HIMSELF

“And, all long the only person man has to fear, is himself.”~ Paulina berg

Let me give you some live examples.

Person A. Lies so much that she does not believe a word anyone says, even if they were honest.

Person B. Is so afraid that everyone will shut him down that he shuts them down first, even if they are a good person with no intention to hurt others, so he ends up hurting everyone.

Person C. Is so afraid of being used, that she refuses to do the right thing, out of the fear of being used because she uses good people when they do the right thing.

It's funny, there is a saying that goes, “And, all along the only battle we face is the one with our minds.”- Unknown.

If man manipulates severely, he would never believe a word anyone has to say and will live in fear and scepticism of others, even if a person meant well and had good intentions, he will take his pain out on that person and accuse them of blasphemy.

Is it true that the only person man has to fear is of himself and his own karma?

Let me give a real live example.

Some people in my experience, will not brush the tongue even though you tell them because they are so afraid of being the light.

Jesus said, “Only evil people fear the light.”

What are they afraid of? What did they do? Why does man fear himself so bad?

Let me give one more example.

Some cancer patients, are so afraid of their intentions that despite the insurmountable pain they are in, they refuse to repent to save their own lives, they rather die of cancer than to face their own intentions.

Why not just repent, and relieve the pain?

What are they afraid of?

Themselves.

Man do the right thing and he will no longer fear himself.

CHAPTER FIFTEEN - ADMIRE SUCCESSFUL PEOPLE

There are so many experts in this world.

The people closest to perfect are God, Jesus, non-debted billionaires, Moses, Buddha, and talented experts in their field.

Would it not be wise that if you wanted professional, financial or singing advice, you would go straight to the experts and ask for help?

After all, they do get an A++++ on their score card.

Unsuccessful people are never truly happy for the success of others, they get jealous, they complain and they gossip.

What do we do to people we don't like? We do not wish them happiness, we do not wish them success, nothing good about them makes us happy.

But no!

That's not ok.

The only way to be successful is to truly admire people's success, like being happy for people who have money, and then that gets recycled and everyone will be happy for you.

The fastest way to success is by admiring and being happy for the success of others, and everyone will be happy for you, but like all process this takes time and dedication.

One small correction of not being happy, and you're going straight to hell. I Joke.

But it's very close from true, one small correction is enough to lose everything you have.

In saying such, do be happy, and in the words of one of the richest celebrities that **Keanu Reeves**, told me, "Secretly admire people's success."

CHAPTER SIXTEEN - COMPASSION

If you ever speak to Warren Buffet, he has a super high degree of compassion for everyone.

Usually the more wisdom you attain, the more understanding you have for everyone and even the wicked.

Because, in Kabbalah, ‘It’s not about how much you love those you love, but the wicked.’”

We all know that everyone on the Forbes list are philanthropists, but awareness is in knowing that if you don’t give, it’s instant chaos, but what helps the most is in having compassion for the poor, because you of all people understand it well.

That’s what I mean by compassion.

Having experience.

Actually, the more I live life, I reflect on principles and philosophies like having compassion for the wicked, aka Hitler.

For starters, being disconnected to the light, fame magnified his karma, was he reptilian?

Did he not receive enough empathy?

I work so hard for light, imagine the life of psychopaths.

And there you go! Compassion.

CHAPTER SEVENTEEN - DON'T BE STINGY

Dr Joe Vitale says, in his book, “Attract money now,” That we have certain items of best clothes in our wardrobes that we are afraid to wear, and so they become obsolete with fashion overtime and we never use it.

He states, that the law of attraction tells us to wear our best items, first and today, and in attracting abundance, we go from the scarcity continuum to the abundance continuum.

The way I see it is, don't ever be stingy.

Being stingy is instant chaos, and leads to more financial problems than the cost at hand.

Wearing your best, is like being generous to the self and not being stingy.

Even if you have money problems, by not being stingy will alleviate your problems, quicker than by being frugal.

At all times, never be stingy, and be happy to give when you give.

Because having no attachment to money is the key to life, and the key to fulfilment, and abundance.

CHAPTER EIGHTEEN - BUYING FREEDOM

What does it mean to buy freedom?

For years, I bought selfless takeaway so my husband and I have more time to share and do things that create more wealth for the both of us.

If I had the spare money to pay someone to clean my bathroom I would.

Time is such a valuable commodity because it's something you can't get more of in this lifetime.

Yes you can live to a billion lifetimes, but you are limited to 125 years this lifetime. Am I exaggerating? Let's not kill the joke.

Dean Graziosi in his book "Millionaire habits" says, he would pay people to mow his lawn to free up time to be doing phenomenal things, that make more money in the long run.

Yes it costs you money, but weigh the opportunity cost, \$100 for potentially millions, is worth it to me.

On the plus side, you're providing employment, good karma on your end I shall say.

CHAPTER NINETEEN -NOTHING IS RANDOM

“God does not roll dice.”- Albert Einstein.

If you don't like your current situation, your money, your life, your situation, then do something about it. Change.

Nothing in this life is random, the current universe you have to day, is all predestined.

If you don't like it, then move. You're not a tree.

Make no mistake that it takes years to harvest success, root seeds of fruition, and plant money trees of long lasting fulfilment.

You saw the picture of the man with chaotic thoughts, could you possibly envision him to be a success with his financial situation or a complete disaster?

Well, then there, you go, nothing, absolutely nothing is random, and unless you take control of your life today, life won't happen to you, but for you.

Every thought creates your future 6 years from now, so plant wisely, correct beliefs and correct your life canvas.

CHAPTER TWENTY - TWO RIDDLES

Riddle 1:

The rich landlord wants to marry the beautiful farmer's daughter. He tells the daughter that if she doesn't marry him, he will evict her father from the farm and they will be homeless. She begs for mercy. Slyly, the landlord agrees to allow her one chance to stay. He pulls a bag from his pocket, and reaches down and picks up 2 stones from the rocky path then places them in the bag. Reach into the bag and pull out one stone. If you pull out the black stone you will agree to marry me. If you pull out the white stone you and your father can live here rent free. The problem is that she knows that he picked up two black stones and no matter which one she selects she will be forced to marry him. What can she do to avoid marrying the greedy landlord?

15

Answer: She throws one stone away and says, “Whatever is left should be the black stone, which means I’ve picked the white stone that I’ve thrown away.”

Riddle 2:

Can you solve the **heaven and hell guard problem?**

You have died and are in limbo. There are two doors—one leads to heaven, and the other leads to hell. There are two guards, one by each door. One guard always tells the truth, and one guard always lies. You don't know which guard is the truth teller or liar.

16

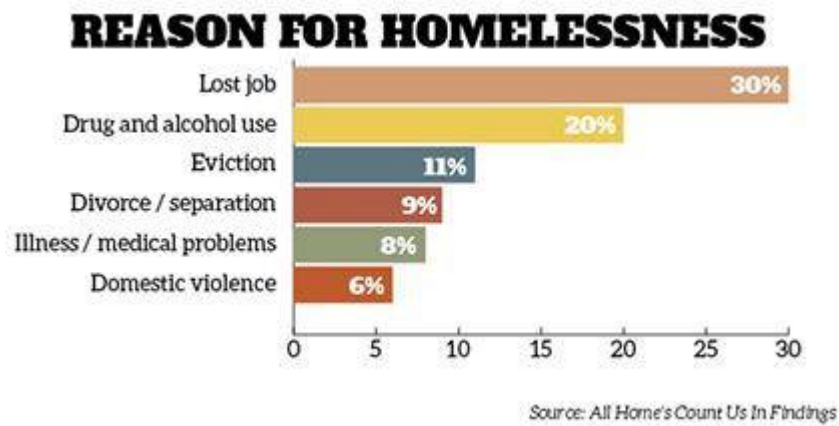

These stories changed my life growing up, I never perceived people to be the same after these riddles, I was always aware of liars, and malicious people.

At least now, you know what people are capable of - you'll never be naïve again.

16

19

SECTION 3- LOVE YOUR EGO

CHAPTER ONE- SELF LOVE

When I say self love, I mean loving your ego, and just as you love your ego, you need to be generous to the ego as well, as generous to others.

Stinginess comes back in awful ways like baggage and incredible addiction.

And it will cost you more in the long run if you're stingy.

Then it would lead me to say, that you must be generous with your self, and to others.

The more you are generous to your self, you will be more generous to others and have spare money in the long run, as a result of overcoming excess baggage.

But just because it's OK to be generous to the self, it does not mean over consumption.

That's a different story.

Let's speculate living below your means.

For a long time, I had no choice but to live below my means, I cut my own hair to save money, I wore the same outfits all the time, I was always in luck when it came to expensive but quality sales of nice fitted clothing, Buy once, wear everyday.

I ate once or twice a day, usually I am so busy sharing, I don't have time to eat.

As, I am busy being committed to being rich, daily.

And, I never luxurised in new products or fancy things.

I am not stingy, I do like expensive things and do spend rather enormous amounts on other people, but when it comes to myself, you could say I live with what I need, and not with what I want.

Why is living below your means important?

Because like any intent, all intents will echo forever and you wouldn't want over consumption as that intent.

In saying so, if you live below your means, that intent echoes forever, and gets passed on.

As, "What you do in the small, you will do in the big."

Why is this the secret ingredient and constant variable of all billionaires?

Because over consumption is lethal, and an intent you do not want to pass on.

Look at how many celebrities make their glory but then file for bankruptcy for over consumption and lavish spendings - they do not live below their means.

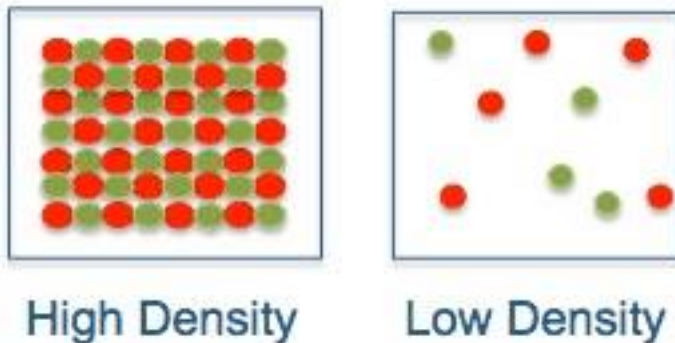

Just because you make it, does not mean you're set for life.

If you google, how millionaires go bust what you find is rather alarming.

But it is true, that the habits all billionaires have in common is living below their means.

And by that token, get used to it while your income is small, and such habits will last a lifetime.

CHAPTER TWO - HIGH AND LOW DENSITY

21

High density means you have a lot of sin, it could be a subconscious of 30% anxiety, 40% smoking, or 80% anxiety. Perhaps, 10% lying, 30% greed, not unless you're lucky to be like J.K Rowling of 100% pure love.

These intents will continue to repeat forever, especially if you have sin.

And, for as long as it's on your subconscious, it will continue to echo and you will not be able to stop repeating yourself.

Then how do we break out of this spell?

Let's say sin, could be speaking ill of others, bread of shame, and lying, and smoking.

Each sin, this would then be 4 marbles, could be 28 if you times each intention by 7.

But in order to remove each marble at a time, kind of like you brick layering the soul, you need to repent to get to low density.

At low density, we are intuitive, we click, and intuition flows.

We are smart, we are creative, and not thick headed.

In high density, we hurt others, we have ego, and we keep doing the wrong things.

But the more you repent like mad, which can take years to shed, you will reach low density, and have a knack for being diamond.

CHAPTER THREE - UNDERSTAND BOTH SIDES

What do customers want? As the boss, what do you want?

Know what it feels like to be the customer, as well as the provider.

Usually, until we are on the receiving end, we will then stop abhorrent behaviour and proceed with more compassion.

As the patient, my doctors think they're saving my life and I'm dangerous, while I can feel the lithium poisoning to my head, it actually really hurts.

I haven't had my menstrual cycle for 7 years, from over medicating and max doses, and am pretty much considered infertile, as a result.

Are they saving my life? I've never had schizophrenia thoughts not once, not ever, but apparently to them meditation is socially withdrawn.

The point is, understand both sides, the patient, the doctor, how it feels to have anxiety, how it feels to do public speaking, how it feels to share, how it feels to be generous with your money and time.

Know what it feels like to be the receiver of money and the giver of money.

If you like, I give back triple when people give me money,
I go the quadruple-mile, because I know the feeling of
being the generous one.

In all your chaos, understand how it feels to be in chaos,
and understand how it feels to be the light.

Know your light, and know your dark.

Thank you for reading.
